

# L'Aqua

Perhaps you're searching for that idyllic wedding venue that captures all your dreams and weaves romance into a stunning fairytale location.

Search no longer!

As you enter L'Aqua overlooking the sparkling waters of Cockle Bay, your childhood dreams come true.

L'Aqua is the embodiment of a revitalised and exclusive wedding function venue created through a striking multi-million dollar renovation by renowned interior designer Michael McCann of Dreamtime Australia.

A stunning award-winning wedding venue with a reputation as a market leader in service and style, L'Aqua has been reinvented to seat 100 guests for dinner in the Gold Room under the magnificent Swarovski crystal cherry blossom chandelier or 150 for dinner in the elegant Terrace Room.

The Gold Room, featuring its own entrance and equally unique style, has been designed to celebrate all things glamorous where

gold makes a signature statement.

Whether an intimate occasion requiring a smaller reception venue or a gala celebration that needs a stunning venue, L'Aqua has many options to offer to celebrate a wedding in style.

The latest European technology has been in-built into the ceiling to create wedding options of ambient lighting and colour washes to match a variety of wedding colour schemes.

The dedicated wedding team will assist with your every need so you can enjoy your day knowing that everything has been taken care of. They will ensure that the smallest details are attended to with style and care, and can recommend their preferred suppliers Expressions Photography and Elegant Draping to create a wedding exactly how you dreamed it to be.

Restaurant-quality cuisine is included in a range of menu packages to suit every taste and budget.

At L'Aqua, the team provides the dramatic canvas – just bring your hopes and dreams...
