Sydney's Largest Floating Venue Hosts Major Events

Media release: August 27, 2014.

Sydney's largest anchored floating venue, Dockside Pavilion in Darling Harbour is well and truly open for business. Dockside Group's newest venue has hosted an elite caliber of events in the first few weeks of opening.

With a capacity of up to 1440 guests seated and 2000 standing, Sydney's newest venue has seen a diverse mix of important 'first' events commencing with the gateway to the Sydney International Boat Show, a private function produced by leading Australian Event Stylist & Designer Phillip Carr, the Sydney launch of Mercedes Benz's next-generation C-Class Series, the Project Futures Stella Fella Charity Black Tie Ball and The Australian Beauty Awards.

Dockside Group Managing Director, Christopher Drivas, said Dockside Pavilion will add a great deal of value to the Darling Harbour precinct.

"We've had a great response from our clients and we're tracking well with strong bookings to date. In particular, many of our corporate clients have secured the venue for multiple year event bookings.

"We want people to be wowed by the magnitude of this venue and understand that it's a spectacular blank canvas which can be used for virtually any type of event," said Mr Drivas.

The Pavilion structure was designed by Warwick Bell from Fabric Structure Systems in Auckland, who famously created The Cloud for the New Zealand Rugby World Cup.

The Dockside Pavilion is a temporary venue owned and operated by Dockside Group and will remain in Darling Harbour until the completion of the new International Convention Centre. For more information about Dockside Group visit www.docksidegroup.com.au
